# Quinta GROUP

Quintagroup is a **web solutions company** that has been working as a provider of Python development services on the market for more than a decade.

Our business portfolio runs deep and wide, providing a clear proof of our many capabilities.

01 WHO WE ARE

We do **Python development**. And we do it in three steps:

Design

Plone/Python
Development

Deployment

Through project assessment to its development and implementation we create better web applications and software, our goal is to help you build products your customers will fall in love with.

02
WHAT WE DO

The world of software and web is evolving in real-time environment, that is why we invest heavily in updating our development skills and technology expertise in **Python, Plone CMS, Django, HTML, CSS, JavaScript.** In this section we give you a glimpse into the web, software and mobile development areas that we cover.
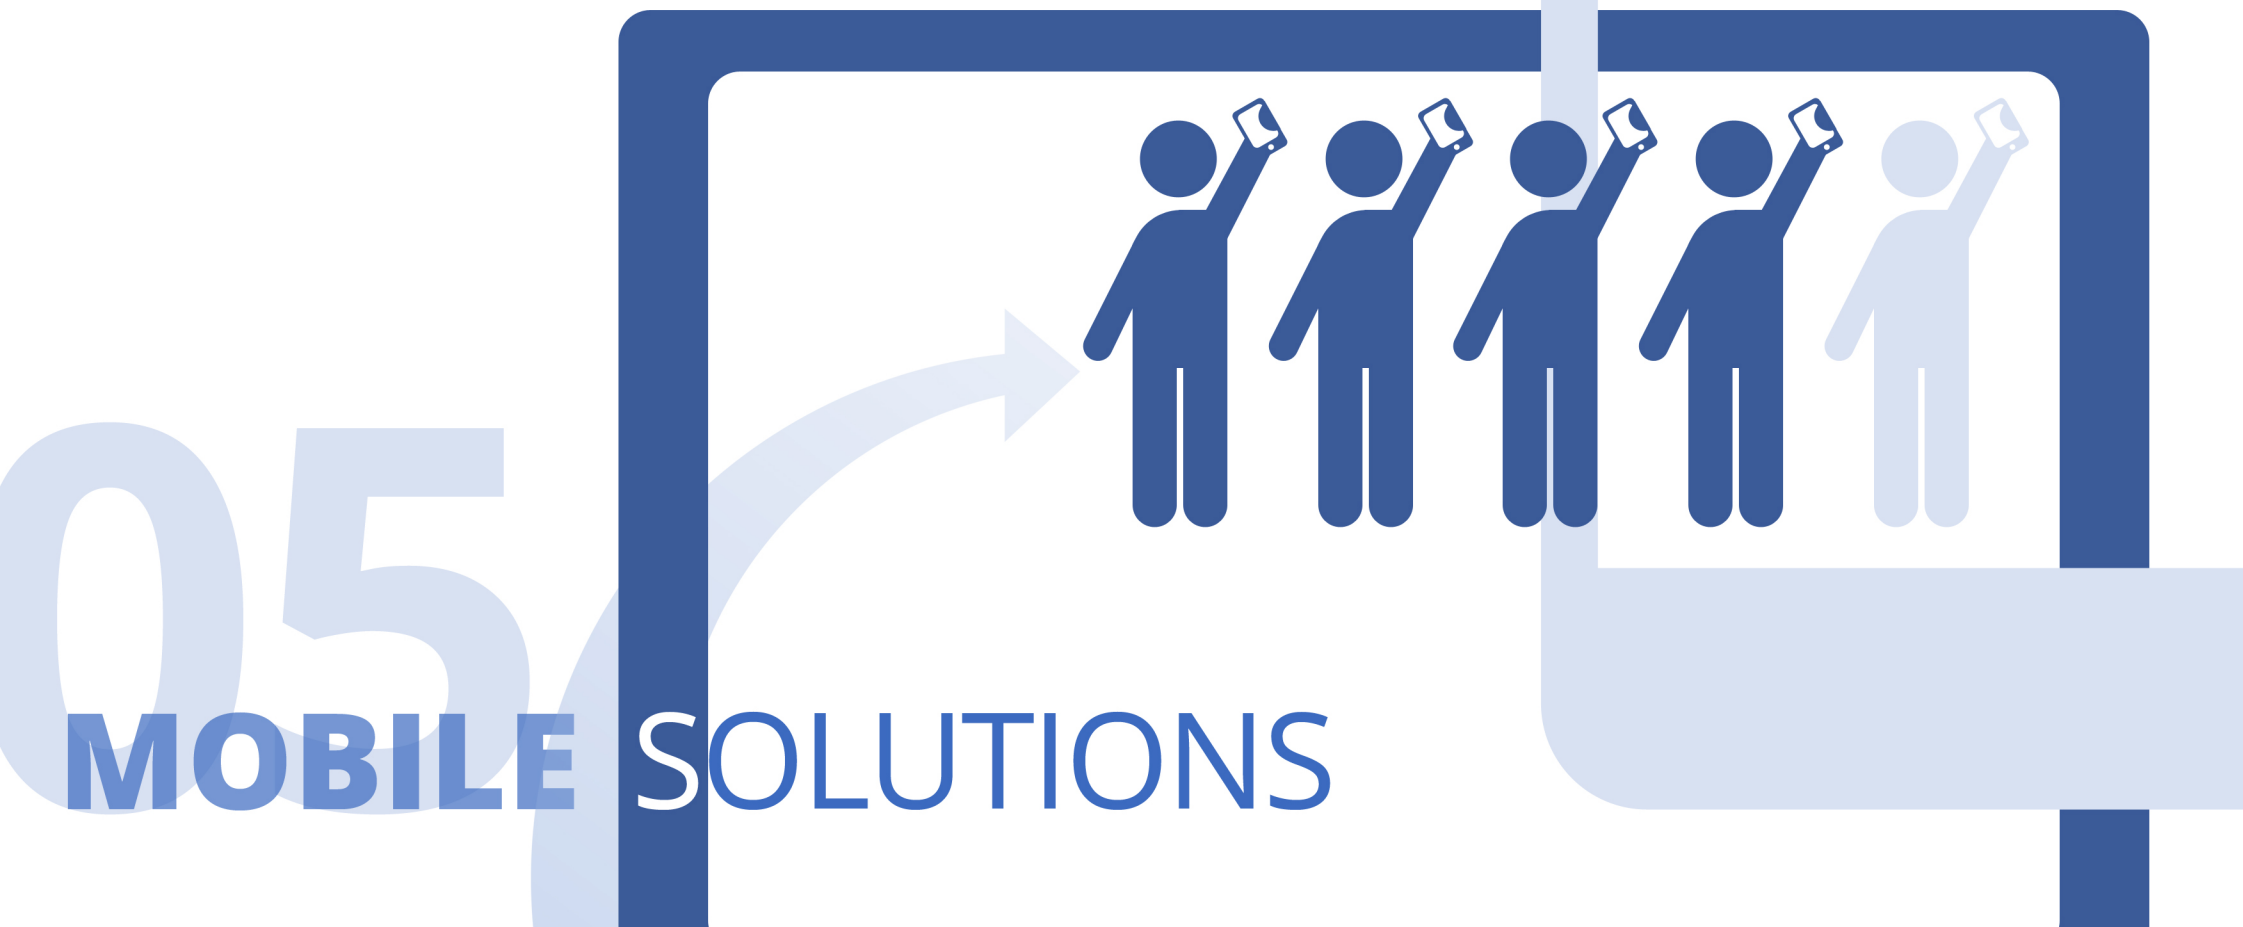

AREAS OF EXPERTISE

Beautiful Python software with an attitude is what we specialize in.
Sometimes design agencies are too great at giving you a look and feel
that will make most Python developers groan because implementation is too
complex, borderline impossible.
We're different because our team includes designers and front-end developers
that implement our custom designs. Otherwise, we provide
a professional team to turn that surreal design into your reality.

04

DESIGN, UX AND QUINTAGROUP

You may ask yourself, do I need mobile? And the answer is ... yes - everyone needs mobile these days. Each day mobile usage is coming closer to overpowering PC's. That's why our development teams are experts in HTML5, responsive design, mobile application development.

05

MOBILE SOLUTIONS

Our team of highly qualified Python developers is unrivaled and
we offer a wide canvas of services that have been grouped above.
With Quintagroup as your IT service provider,
you are guaranteed to get:

Fast Delivery Time

Cost-Effective Solutions

Peace of Mind

WHY CHOOSE US

We will be happy to understand your business needs or pain areas and transform them into a business solution unlocking value of what you do!
